

SIERRA STRONG!

Our Goal is GREEN

Reduce restrictions in 3 easy steps

1) MASK UP

The easiest & most effective way to control Virus spread is to wear a mask in public places & around people!

2) SHOP SAFELY

Wear a mask when shopping, & reduce travel by supporting local businesses, as much as possible!

3) GET TESTED

New Mexico's system is based on how many people are tested, & how many test positive. Get tested to bring down the positivity rate!

Businesses are depending on us to get to Green! Do your part to limit spread & reopen local businesses!
